Experience

1. Full Stack Web developer intern at Way2Go digital

6/26/2023 → 7/26/2023

 - worked within a team of 4 developers on an e-commerce project, used REACTJS and PHP to build restful APIs and the Database.
 - Coordinated with BLOM bank to correctly configure the payment gateway API.
2. Full Stack Web developer at Way2Go digital

7/26/2023 → 11/30/2023

 - Worked within a team of 4 developers on several projects using ReactJS, php and WordPress.
 - Built business websites and maintained e-commerce and other premade websites, and built Restful APIs.
 - Coordinated with the clients via email to make changes.
 - Did IT administration i.e. created company outlook accounts for new interns and employees, and did troubleshooting for anything IT related.
3. Freelancing

12/01/2023 → present

 - I successfully completed four diverse projects utilizing WordPress, JavaScript, and CSS. These projects encompassed informative, business-oriented, and e-commerce websites. I got to work on these projects through leveraging referrals.
 - The projects are Dentrooper360, Fleurie flower shop, Navigate Success and MUC Academy of Continuing Education.
